INFINIRIDE

Ortholite®

Wholesale: 79,00 € | Sug.Retail: 150,00 €

Commercial Model name

PREDICT 2

The running shoe that unlocks to adapt, keeping your landings plush

Unlock your potential with a running shoe that adapts to you and the road. The updated PREDICT2 features Anatomic Decoupling to shadow your running style, reducing stress on joints and delivering a smooth ride. TPU-based Infiniride™ amplifies the experience by keeping landings cushy. An all-round road runner offering exceptional fit and comfort.

Adaptable ride

Unlock to adapt. Anatomic Decoupling lets the PREDICT flex with your foot, so the independent platforms can adapt to your stride and the terrain.

Premium cushioning

Plush cushioning with every strike – our TPU-based Infiniride™ foam allows you to clock miles in first-class comfort.

360° instant fit

A foot-hugging fit from an ultra-comfy sock-like forefoot construction with no inner seams.

Dark Denim/Wht/Turkish Sea

Wholesale: 47,50 € | Sug.Retail: 90,00 €

Commercial Model name

PREDICT MOD

A smooth, comfortable ride from dawn till dusk

The PREDICT MOD is about all-day comfort. With Anatomical Decoupling and Energy Cell+ technology, the shoe adapts to the way you move, providing inherent stability and ample cushioning. A molded heel collar encases your foot for frictionless comfort everywhere you go.

Adaptable performance

Independent platforms on the outsole help stabilize your stride just when you need it.

Smooth ride

The anatomically decoupled midsole and outsole reduce stress on your joints for a smoother ride inspired by the natural motion of your foot.

Instant fit

With a molded heel, your foot will slip in and stay comfy whatever the distance.

Wholesale: 73,50 € | Sug.Retail: 140,00 €

Commercial Model name

SONIC 4 Accelerate

The lightweight, responsive training shoe for your fast days

The updated SONIC 4 ACCELERATE is designed to go even faster. We've kept our Optivibe™ cushioning to dampen uncomfortable vibrations without sacrificing energy return, so you get a really responsive ride. But, we've reduced material in the forefoot, collar and tongue for an even closer fit. This shoe is ready to pick up the pace, are you?

Reduce vibrations

Optivibe™ cushioning helps limit vibrations with the aim of decreasing muscle fatigue, while continuing to deliver a responsive ride.

Responsive ride

Delivers that bouncy, springy feeling each time you push off the ground.

Featherlight

Now even lighter with a soft, featherweight mesh and collar and tongue, so you feel like you're flying.

SONIC 4 Balance

The compromise-free training shoe with premium cushioning and swift rebound

The updated SONIC 4 BALANCE is designed to be as springy as it is cushioned. We've kept our Optivibe™ cushioning to dampen uncomfortable vibrations without sacrificing energy return, so you get a really responsive ride. Now with a softer mesh and inner booty construction, this shoe is revving to go the extra mile.

Reduce vibrations

Optivibe™ cushioning helps limit vibrations with the aim of decreasing muscle fatigue, while continuing to deliver a responsive ride.

Responsive ride

Delivers that bouncy, springy feeling each time you push off the ground.

Balanced transition

The Geometric Decoupling axis is centered to deliver a balanced, effortless forward transition from contact to propulsion.

SONIC 4 Confidence

The plush, responsive training shoe to feel comfy and run energized

The updated SONIC 4 CONFIDENCE is designed to give you that extra assurance and energy. We've kept our Optivibe™ cushioning to dampen uncomfortable vibrations without sacrificing energy return, so you get a really responsive ride. But now with more structured mesh, extra padding and updated SensiFit™ wings, you'll feel even more confident.

Reduce vibrations

Optivibe™ cushioning helps limit vibrations with the aim of decreasing muscle fatigue, while continuing to deliver a responsive ride.

Responsive ride

Delivers that bouncy, springy feeling each time you push off the ground.

Reassuring comfort

The refined mesh and Sensifit construction hug the foot, while a padded collar and tongue keep you comfy.
